

HARPING ON?

We have tried to give some background information in each study, but further reading is bound to help. There are some excellent introductions to the Psalms in books such as Lion's 'Handbook to the Bible'. Two particular commentaries that may help are Kidner's in the Tyndale series and Eaton's in the Torch series. It is also helpful to have a Study Bible and a Bible Dictionary if you can afford these. Maybe your church has a Library which can help.
