

## **Running Growing Leaders in Rhosnesni**

Enabling everyone in church to discover and use their God-given gifts is a real priority for us as we seek to build a vibrant, outward-looking Christian Community. *Growing Leaders* has provided an excellent tool to help us do so with committed lay people. The material is well structured and comprehensive. Participants have particularly valued getting to know and grow with other developing leaders, and bonds of trust and mutual support have developed. Time with mentors has been a significant aid to growth.

I would recommend the course to any church leader who wishes to build up the saints for acts of service. Whilst it does require a significant time commitment to run well, I believe that the long term fruit of releasing people into ministry will repay this investment many times over.
