

We are prayerfully seeking God's choice for our next vicar.

We are an evangelical Church with a number of people from other Church backgrounds who are actively involved in the Church and in community life and we have been a healing Church for many people.

Due to staff changes our new vicar will have the opportunity to build on and reshape the staff team, in line with our desire to develop bridges in the local community, including with the Christians Across Watford network (multi-denominational).

St Luke's is a Church who are seeking to grow God's Kingdom in our Parish and in the places where we live and work.

We have a passion for the Word of God and want to continue to see God's word in action in all aspects of our lives. We are a training parish and are keen to continue to accept curates, interns and see our congregation develop their gifting.
